

Mohamed Deffa

IT Support · Systems & Automation · AI Tooling

Settimo Torinese (TO), Italy · moh1med.deffa@gmail.com · +39 327 605 9665 · [Portfolio](#)

PROFILE

Self-taught developer and systems tinkerer with hands-on experience building full-stack web applications, automating content pipelines on Google Cloud, and deploying AI-powered workflows. Integrating third-party APIs, and using modern AI tools (LLMs, image search, MCP) to ship real products. Trilingual (Arabic, English, Italian). Available immediately for part-time or internship roles.

PROJECTS

LuxElite — Full-Stack AI Content Platform2024 – 2025

luxelite.beauty (React / Vite / TypeScript / Tailwind / Supabase)

- Built a full-stack K-beauty editorial blog from scratch: React/Vite/TypeScript frontend, Supabase PostgreSQL backend, deployed and live
- Designed and implemented an automated content pipeline on a GCP VM: trend research via Grok API → structured Supabase queue → Gemini-powered blog post generation with image search (Serper API)
- Integrated LiteLLM/RouteLLM for multi-provider LLM routing across Vertex AI (Gemini, Kimi 2.5)
- Performed SEO and performance optimization: lazy loading, Core Web Vitals improvements, JSON-LD structured data

Marmo e Anima — Interactive 3D Virtual Museum2025

1rthuu.github.io/marmo-e-anima (Three.js / HTML / CSS / GitHub Pages)

- Directed and shipped a walkable first-person 3D museum dedicated to Antonio Canova's neoclassical sculptures
- Features WASD movement, mouse look, per-sculpture orbit inspection mode, info panels, and a critical review catalogue
- Deployed as a static site on GitHub Pages; used as a school graduation project

Linux Home Server & AI Model Deployment2024 – Present

Personal lab project

- Rebuilt and configured a used PC as a Linux home server from hardware up
- Installed and configured local AI models (LLMs using ollama) on Linux
- Hardware maintenance: full laptop disassembly, cleaning, and reassembly

EXPERIENCE

Translator & Activity GuideOct 2024

Erasmus+ Programme — Settimo Torinese, Italy

- Provided live translation services (English / Italian) for an international Erasmus student group
- Guided participants through cultural activities; bridged communication between Italian hosts and foreign students

EDUCATION

High School Diploma — Applied Sciences (in progress)Sep 2022 – 2026

IIS Settimo Torinese, Torino, Italy · EQF Level 4

- Coursework: informatics, analytic geometry, trigonometry, physics, chemistry

SKILLS

Languages & Runtime: HTML/CSS · Python · JavaScript (with AI assistance) · TypeScript (with AI assistance) · SQL (Supabase)

Frontend: React · Vite · Tailwind CSS · Three.js
Backend & DB: Supabase (PostgreSQL) · REST APIs · Node.js
Cloud & Infra: Google Cloud Platform (VM, billing, IAM) · GCP VM administration · Linux (Ubuntu/Debian) · Docker (basics)
AI & Automation: LLM API integration (Grok, Gemini, Claude) · LiteLLM / RouteLLM · Prompt engineering · MCP (Model Context Protocol) · Local model deployment · Serper / image search APIs
Tools: Git & GitHub · Google Cloud Console · VS Code · Claude Code · Supabase Dashboard

LANGUAGES

Arabic Native **English** C1–C2 (fluent) **Italian** B1–B2 (working)

INTERESTS

Linux & systems · AI/LLM tooling · Web automation · 3D graphics (Three.js) · Language learning · PC hardware
